### 1 昼食に何を食べよう・・・？そんな時に役立つ 古川校講師Tonyからのアドバイスをご紹介します

2:00, time for lunch! It was a busy morning, so there was no time to pack lunch today. Let's go out for lunch! But where to go...

If we worked at a big factory, we could go to the **cafeteria**. The menu is simple, just a few dishes to choose from. The food is simple but good. The company **subsidizes** the cost of the food, so it's the easiest and cheapest choice.

Lunch from a fast food restaurant is also cheap and easy. There are many to choose from: McDonalds, Mos Burger, Lotteria, KFC... with many kinds of food. The food is tasty, but not very healthy! Eating fast food often takes away **energy** **instead of** giving it.

Another choice is a regular restaurant. A **regular** restaurant serves better food than the fast food restaurants. There are more choices on the menu and the dishes are healthier. We can choose the style of cooking that we feel like eating on that day: Japanese, Thai, Korean, American, French, Italian. Restaurants usually **offer** a special lunch menu at a lower price and with faster service than usual. However, it is still slower than a fast food restaurant or cafeteria. So if your lunch time is short, you had better eat quickly!

- cont. on the right

-- cont. from the left

Is there anywhere else? Yes! We can have a good lunch at a cafe. At the cafe, the service is fast and the prices are reasonable. If we avoid the sugary doughnuts and cinnamon rolls, we can enjoy a cheap, fast, and healthy lunch, and still have enough time for a relaxing cup of coffee before going back to work.

### 読み解きのヒント

cafeteria	食堂	instead of	~の代わりに
subsidizes	~を援助する	regular	普通の
energy	エネルギー	offer	提供する
